- * Nationality: Indian
- * Marital Status: Married
- * Languages Known: English, Bengali, and Hindi

To increase compatibility with ATS systems, I have:

1. Reorganized the resume to prioritize relevant technical skills and experiences.
2. Used keywords from the job description, such as "Python backend development," "frontend frameworks," and "Generative AI and LLMs."
3. Emphasized the candidate's ability to work on both backend and frontend systems.
4. Highlighted the candidate's experience with full-stack development, database design, and project life cycle methodology.
5. Removed unnecessary sections and formatting to improve the resume's overall clarity and concision.
